

TACTICAL WIRE COMMUNICATIONS SOLUTIONS

Capabilities Briefing

Savannah River Nuclear Solutions (SRNS)

Innovative secure communication technologies and expert solutions

Agenda

- Company Overview
- Certifications, Licensing, Bonding & Insurance
- What sets us apart
- Relevant NAICS Codes for SRNS
- Core Capabilities NAICS Codes
- Past Performance
- Closing
- Q&A
- Contact Information

Company Overview

- Technology; Engineering; Construction. (TEC)
- Service-Disabled Veteran and Minority-Owned Small Business.
- Security Clearance and Compliance with DOD/DOE for Rapid Deployment Capability.
- Successfully executed projects in collaboration with: DoD, DoE, and U.S. Army Corps of Engineers.
- Small Business mentoring and support Services with GT Access and Score.

Certifications, Licensing, Bonding & Insurance

Certifications:

- SAM Registered | UEI: GKZ1NJU3GK55 | CAGE Code: 9QGD7

Licensing:

- Licensed Contractor in GA & SC
- Electrical Contractor License

Bonding & Insurance:

- Performance, Payment & Bid Bonds
- General Liability & Workers' Compensation
- Professional & Cyber Liability Coverage

TWCS8625 is fully compliant with federal, state, and DOE/DoD requirements for secure, high-quality project execution.

What Sets Us Apart

Integrated Service Delivery

We provide seamless service across multiple NAICS codes ensuring comprehensive solutions.

Compliance and Quality

Our operations follow DOE-compliant safety and quality systems for trusted performance.

Agile and Scalable Workforce

We maintain an adaptable, scalable workforce to meet changing project demands efficiently.

Strategic Partnerships and Experience

Our partnerships and federal procurement expertise enable rapid capacity expansion and regulatory compliance.

RELEVANT NAICS CODES

All Other Professional, Scientific, and Technical Services

NAICS 541990 showcases our flexible, innovative services for complex government missions needing custom systems and experts.

Engineering Services

NAICS 541330 includes professional engineering services critical for project planning and execution.

Construction & Installation

Codes 238120, 238210, and 238110 represent structural steel, electrical wiring, and concrete foundation work.

Landscaping Services

NAICS 561730 involves landscaping services supporting site development and maintenance.

SIMULATORS SOFTWARE & SYSTEMS DEVELOPMENT (541990-14)

Advanced Simulation Technologies

TWCS8625 uses VR, AR, AI, and real-time data modeling to build immersive simulation environments.

Enhanced Decision-Making

Simulation solutions support scenario-based training and predictive analysis for better operational decisions.

Optimized Human-Machine Interfaces

Systems developed improve human-machine interfaces for effective interaction and operational readiness.

NAICS 541990 – HVAC Cleaning Services

Project Scope and Value

The HVAC cleaning project encompasses site-wide maintenance, with a focus on thoroughly cleaning the entire system.

Health and Safety Compliance

The service ensures contaminant control and air quality while fully complying with DOE safety and environmental standards.

Skilled Personnel and Equipment

Trained staff use specialized tools to deliver efficient, high-quality HVAC cleaning with minimal operational disruption.

NAICS 541330 – Engineering Services

Site Infrastructure Planning

Engineering services include comprehensive site infrastructure planning to optimize construction and operational efficiency.

Environmental and Safety Compliance

Ensuring adherence to environmental and safety regulations is a core aspect of our engineering service offerings.

Technical Documentation and Feasibility

Providing detailed technical documentation and feasibility studies to support system upgrades and planning decisions.

Regulatory Adherence in DOE Environments

Our engineers excel in DOE-regulated environments, ensuring precision and compliance with federal standards.

NAICS 238120 / 238210 / 238110 – Construction & Installation

Construction Services Overview

Services cover concrete pumping, electrical wiring, fire protection, and structural steel fabrication and erection.

Quality and Safety Protocols

Rigorous QA/QC protocols and certified crews ensure safety, compliance, and high-quality workmanship on projects.

Secure Environment Expertise

Teams are trained to operate within secure, regulated environments, ensuring reliability in sensitive infrastructure work.

STRUCTURAL STEEL & PRECAST CONCRETE (238120)

Core Structural Services

TWCS8625 provides concrete reinforcement placement and structural steel erection for robust facility frameworks.

Precast Concrete Installation

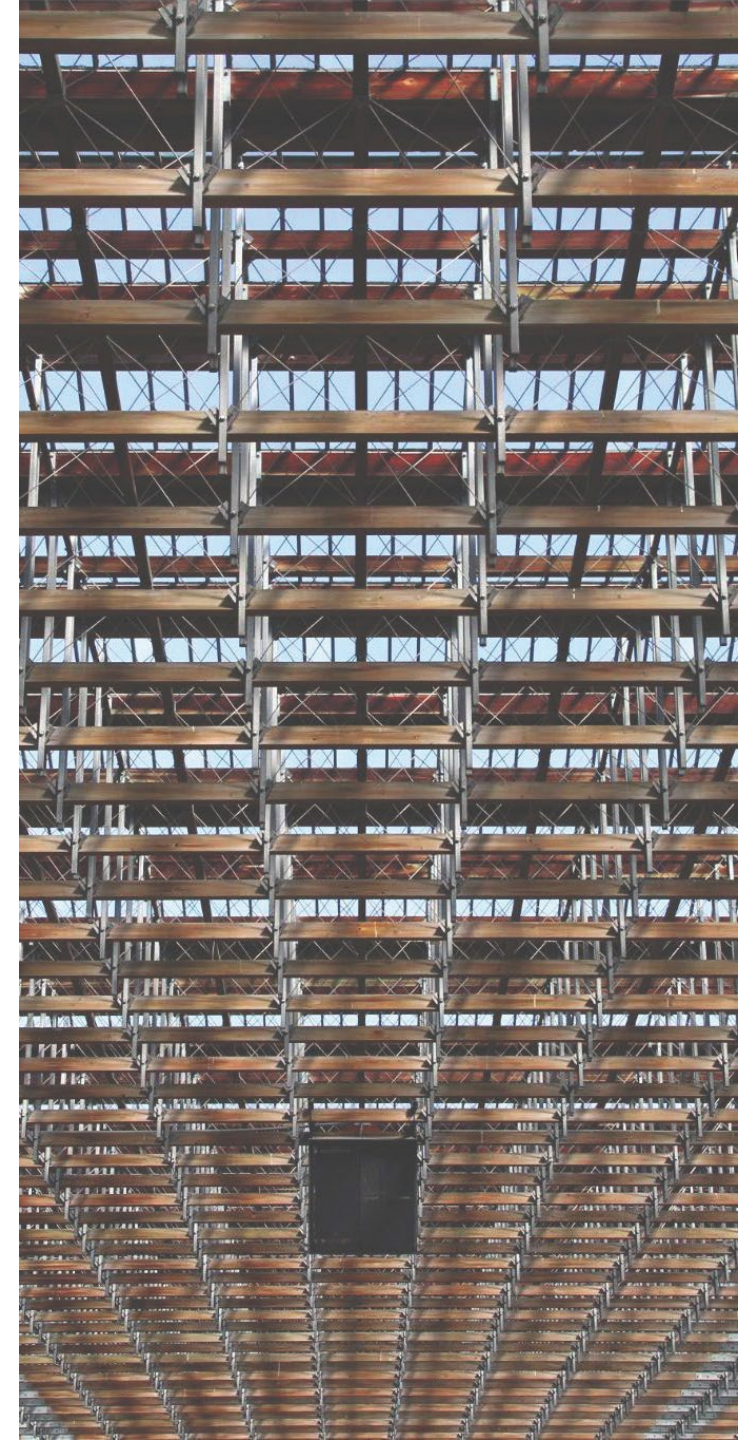

The installation of precast panels and slabs enhances construction efficiency and improves structural durability.

Additional Construction Services

Services include curtain wall installation, stairway construction, and the placement of reinforcing rods, bars, mesh, and cages.

Ensuring Structural Integrity

These services ensure secure, compliant structures essential for mission-critical facilities.

POURED CONCRETE FOUNDATION (238110)

Comprehensive Concrete Services

TWCS8625 offers concrete pouring, finishing, resurfacing, and pumping services, which are essential for foundation construction.

Structural Foundation Elements

Construction of building foundations, footings, and retaining walls ensures durability and compliance.

Specialized Applications

Grouting and shotcrete techniques enhance structural integrity in mission-critical government facilities.

ELECTRICAL & WIRING INSTALLATION (238210)

Comprehensive Electrical Services

TWCS8625 efficiently installs automation systems, power control panels, and low-voltage electrical systems.

Fiber Optics and Telecommunications

We provide fiber optics cable splicing and telecommunications equipment setup for connectivity.

Safety and Compliance

Ensures a secure electrical infrastructure that supports the safety and operational standards of government facilities.

NAICS 561730 – Landscaping Services

Comprehensive Landscaping Services

Services include grounds maintenance, vegetation management, perimeter security, and erosion control to maintain the site.

Alignment with SRNS Opportunities

Our services align with SRS FY25-02 and FY25-03 ground maintenance contracts.

Environmental Stewardship

We prioritize sustainable landscaping practices and comply with DOE sustainability goals to protect the environment.

Secure Facility Maintenance

Maintaining a clean and secure environment around sensitive facilities with specialized equipment and trained personnel.

Past Performance (238120)

Ski Lodge New Jersey

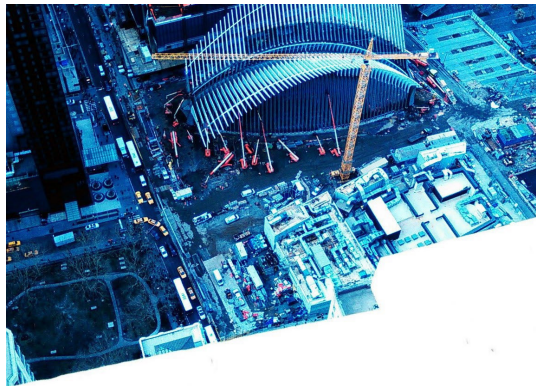

Paris Island Gun Range

**cylindrical reinforced concrete
foundation**

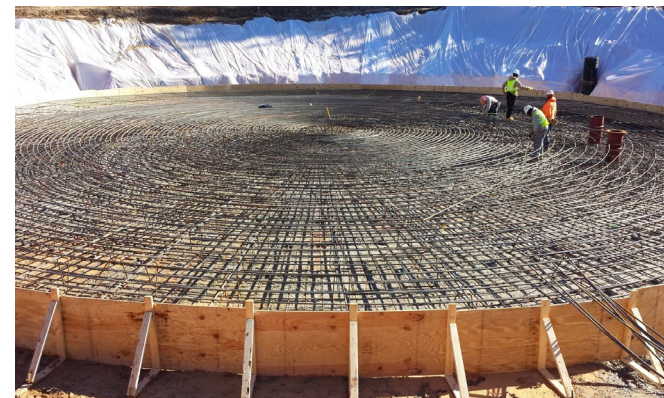

Tower 3 World Trade Center

**Nyack Hospital parking Garage
footing**

**petroleum tank foundation
chemical storage**

Closing

- “TWCS stands ready to support SRNS with scalable, compliant, and innovative solutions in TEC.”
- From Conducting Battlefield operations to Boardroom Strategies, three factors must be met

From the Battlefield to the Boardroom

Mission	Assets Available	Time
---------	------------------	------

Scope	Cost	Time
-------	------	------

- We are dedicated to safety, quality, and achieving our mission, ready to assist SNRS.
- We welcome the opportunity to collaborate and contribute to SNRS’s future projects.”

Q&A

KEY CONTACT Information

Primary Contact Information:
